Introduction of K-UAM CONFEX CI

K-UAM CONFEX intends to express itself as a platform where discussion and cooperation are made for the future of global cities that lead UAM.

The green color, which means eco-friendly future mobility, and the violet color, which expresses innovation and ingenuity, harmonize each other. The dots and lines that move in various shapes and directions in a dynamic form symbolize its identity "networking" to connect Incheon with cities around the world.

What it the K-UAM Confex?

The K-UAM Confex in Incheon, the hub of Asia, aims to serve as a platform for the UAM global industrial ecosystem. It is an event that combines a conference to discuss the latest technologies and trends in the UAM field, and the exhibition to display the contents of various companies in the UAM industrial ecosystem. The K-UAM Confex, which began in 2021, is where UAM leading cities and airports establish a cooperative system and connect with each other.

This year's 2022 K-UAM Confex will be a stage where productive meetings and active discussions will take place between various companies and institutions that will make up the UAM ecosystem around the world.

With K-UAM Confex, Incheon gets closer to be a global leading city in UAM.
